Hi there!

Before you let your child log in to or otherwise access their Girls Who Code Clubs account, you should know what information we will collect from them. Scroll down to view our full Direct Notice disclosure, but here are the highlights:

- You will only give consent once for any child you create an account for (including additional children you later create an account for) or allow access to any part of the Girls Who Code Clubs service (the "[Clubs Service](#)") You will not see this notice again for additional children you add.
- If your child is using a [Clubs Service](#) connected to school use ("[School Club](#)"), your child's teacher may have provided consent on your behalf under what is commonly known as "[school consent](#)" under the Children's Online Privacy Protection Act (COPPA).
- If your child is using a [Clubs Service](#) not connected to a school (e.g. a library or community center) (an "[Outside School Clubs](#)"), your child's club will have an adult "[Outside School Clubs Facilitator](#)" to support the [Clubs](#), but only you, as your child's parent/guardian, will have the ability to consent to your child's participation. You will be able to sign up for your child and consent through this webpage to their participation by creating a parent account and then registering your child.
- We never post or share your child's [Personal Information](#) publicly.
 - If your child is in a [School Clubs](#), the [Personal Information](#) in their [Clubs Student](#) profile will be visible to them, you as their parent, their [Teacher Facilitator](#), [Clubs Signatory](#), and their [School Clubs Administrator](#). Your child will also have the opportunity to ask and answer questions about their curricular activities, which will be visible to them, you as their parent, their [Teacher Facilitator](#), [Clubs Signatory](#), and the [School Clubs Administrator](#). Additionally, your child will be able to interact with a messaging board that is visible to other [Clubs Students](#) in their [Clubs](#), as well as you, their parent, and the [Teacher Facilitator](#), [Clubs Signatory](#), and [School Clubs Administrator](#). Finally, your child may post projects on the Project Gallery, which is visible to any user logged into [Clubs-HQ](#) (but not the general public).
 - If your child is in an [Outside School Clubs](#), the [Personal Information](#) in their [Outside School Clubs Child User](#) profile will be visible to themselves, you as their parent, their [Outside School Clubs Facilitator](#), [Clubs Signatory](#), and the [Community Partner](#) associated with their [Outside School Clubs](#). Your child will also have the opportunity to ask and answer questions about their curricular activities, which will be visible to them, you as their parent, their [Outside School Clubs Facilitator](#), [Clubs Signatory](#), and the [Community Partner](#) associated with their [Outside School Clubs](#). Additionally, your child will be able to interact with a messaging board that is visible to other [Outside School Clubs Child Users](#) in their [Outside School Clubs](#), as well as you, their parent, the [Outside School Clubs Facilitator](#), [Clubs Signatory](#), and the [Community Partner](#) associated with their [Outside School Clubs](#). Finally, your child may post projects on the Project Gallery, which is visible to any user logged into [Clubs-HQ](#) (but not the general public).
- If your child is using Girls Who Code independently or as part of a Girls Who Code activity outside of Clubs in [Direct Services](#) (ex. GWC Challenge), or you or your child are using some of our virtual event activities where your child's data may be collected, and your child also has a [Clubs Student Account](#), some of your child's data, including what may be considered [Student Data](#) or [Education Records](#) under the Family Educational Rights and Privacy Act (FERPA), will be used and shared between in school and out of school use (use not in connection with a school) and you are consenting to this use and sharing. See our FAQ for more details on what information is shared between [Outside School Clubs Child Accounts](#), [Outside School Minor Accounts](#), and [Clubs Student Accounts](#).
